Wireframe Builder (Website)

Let's create a digital prototype to map out the user interface of our website.

Step 1

Give edit access to your team by clicking on the "+" button in the upper right corner. Add people in or share the link.

Step 2

Drag and drop wireframe elements to build user interface prototypes. Search @canvawireframes on the elements tab for more options! Feel free to duplicate elements and add arrows for flow.

Use these to create whiteboard magic!
